

Senior React Native Engineer | Mobile Tech Lead | Fintech & Full-Stack Web

Alberto Iván García Montemayor

Professional Summary

Mobile engineer and tech lead with 6+ years in React Native. Currently leading the “I Love St. Jude” fundraising app at ALSAC. Fintech background in mobile security and delivery; also ships full-stack web products (bookings and online payments) end-to-end.

Work Experience

ALSAC (St. Jude Children's Research Hospital) — via Concentrix

Senior Software Engineer

Jan. 2026 – Present

I Love St. Jude: Tech lead for ALSAC's fundraising app (donations and donor engagement for St. Jude Children's Research Hospital). Designed and built the React Native / TypeScript architecture from scratch with Okta and AWS EC2. Remote (USA).

La Casa de Chuy el Rico

Full Stack Developer — Freelance

Dec. 2025 – Jun. 2026

Built lacasadechuyelrico.com end-to-end — hourly bookings, online payments, and real-time confirmation — for a photography venue in Monterrey. Next.js, TypeScript, and Supabase on Vercel; 600+ weekly users.

Vector Casa de Bolsa

Mobile Tech Lead / Senior Mobile Developer

Jan. 2020 – Aug. 2025

Vit by Vector (2022–2025): Led mobile for a financial marketplace (funds, stocks, insurance, retirement). Managed a Scrum team of 6, reviewing 15–20 PRs/week and shipping bi-weekly releases. Hardened the app with Face ID, MFA, and AES-256 encryption; tightened testing and code review to reduce QA and production incidents.

VectorApp (2020–2022): Built a React Native investment-operations app (stocks, ETFs, mutual funds) with secure integrations; cut operation times by ~20%.

Accenture

Web Developer

Sep. 2018 – Feb. 2019

Built an internal Angular portal in a Scrum team and set up automated mobile UI testing with Appium and Selenium.

Education

Universidad de Monterrey (UEM)

B.S. in Computer Science

San Pedro, México

Aug. 2013 – Dec. 2020
